2024-2025

Heineken

- Performed system testing and validation for the SCAD deployment.
- Reported defects and assisted in user acceptance testing (UAT).
- Used Excel functions and data analysis techniques to improve inventory accuracy.
- Supported system deployment activities across operational teams.

PROJECTS

Laser Mobile Management System[LMMS]

2026 February - April

Tools & Technologies : React ,Node JS , Java , Supabase , VS code

- Develop a system which include all the inventory management,supplier management,repair management,payment management,reviews and ratings management.

Edufix Web based Help Desk

2025 July - 2025 September

Tools & Technologies : Java ,HTML ,CSS ,Java Script ,SQL ,IntelliJ Ultimate ,Springboot

- Web application which help students to clarify or resolve their problems related to learning materials and technical problems.

AIML Diabetes Detector

2025 July - 2025 September

Tools & Technologies : Python ,Tensor Flow ,Pandas ,Google Colab , Pycham

- Train six models, Random Forest ,KNN, Logistic Regression , SVM , ANN and Decision tree for detect diabetes using user inputs.

Real State Management System

2025 March - 2025 May

Tools & Technologies : Java , Servlet , HTML , CSS , IntelliJ Ultimate , Java Script

- Web System which manage real state adds, clients , brokers and agent , book a appointment with clients or agents.

Smart Home Automation System

2024 August - 2024 September

Tools & Technologies : Arduino , LDR sensor, IR sensor, DHT11 sensor, RFID sensor

- A home containing smart key technology to open door, automatically turn on light when there is a movement in the room and the surround environment should dark.

SKILLS

Programming </>

- Java, Python, SQL, JavaScript

Database

- MongoDB, Supabase

Soft Skills

- Time Management , Problem Solving , Team Work , Adaptability , Communication , Attention

Web

- React, HTML, CSS

Tools

- IntelliJ IDEA, VS Code, Git, GitHub
